

Patient of the Month Interview

Name: Mia W.

Date: 1/5/2010

Age: 10 yrs

School: Pace Academy

1. How do you feel your orthodontic treatment has helped you?

I feel my ortho treatment has given me a more confident smile.

2. What did you like the best about your ortho treatment?

My favorite part of my ortho treatment is picking my color ties.

3. What did you like the least during your ortho treatment?

My least favorite thing was refraining from eating a whole apple.

4. What would you tell a future patient to expect?

I would tell a future patient to expect flossing to get harder and to expect brushing times to get longer.

5. How do you feel about your over all experience at CHO (Chapel Hill Orthodontics)?

I feel that everyone is friendly and nice; the office itself is beautiful as well. Even though I may not always like having braces, I enjoy coming to the office.

6. What activities are you involved in?

I am involved in horseback riding and chess. I also play the violin and sing in the minstrel group at school. I love traveling, being outdoors, and reading.
